Washington Authorities are
Convinced That American
Minister is Alive.

If No Help Can Be Got From
Other Nations U. S. May
Attempt It Alone.

CONGER STORY DISCREDITED

Washington, Wis., July 23.—[Special Telegram]—Minister Wu informed Secretary Hay today that his government would deliver Minister Conger to Admiral Remy if this government still discredited the stories about his safety.

Washington, July 23.—[Special Telegram]—The state department has received a dispatch from Consul General Goodnow, Shanghai, dated today, which says that Prince Tuan wires that an officer of the Tsung Li Yamen saw all the ministers on the eighteenth; that none was injured and that no attack was at that time being made. He does not say to whom Tuan's dispatch was addressed.

The navy department has received a dispatch from Remy stating that at a meeting of the allied commanders July thirty was fixed upon as the date for an advance on Peking.

Washington, July 23.—[Special Telegram]—"The United States will undertake to rescue Conger and his colleagues alone if no other powers will join in an early advance," so said a high official of the state department this morning. It is hoped that England and Japan at least can be induced to join in the formation of this column.

This government is convinced that the ministers are alive and that it is necessary to reach Peking at an early date. It is quite possible that General Chaffee will receive orders to make the attempt alone.

Chaffee will be in Taku this week and will have thirty-seven hundred Americans under command. More troops may be sent to his assistance from the Philippines.

Orders Sent to MacArthur
Orders were sent to MacArthur Friday to get more men in readiness.

Minister Wu has undertaken to get another message through to Conger and it is said to be well on its way now. It is understood that Hay informs Conger of the situation to date and urges him to keep up courage and maintain resistance to the last. Conger's reply will afford more direct evidence of the genuineness of the previous dispatch.

Chinese Appeal Confirmed

Washington, July 23.—[Special Telegram]—The report that the States has been asked by China to use its good offices in behalf of that government is confirmed at the state department this morning. Hay, however, says he is not ready to discuss the subject.

An appeal similar, if not identical, was delivered last week to the French government asking mediation. It is probable that Hay will visit the president at Canton and the reply will then be formulated.

It is suggested that this government cannot promise to use its good offices until definite information is obtained from Peking. The state department says that the replies received from the foreign governments to Hay's dispatch announcing the receipt of a message from Conger and urging co-operation and a speedy advance on Peking are so inconclusive that it is considered inadvisable to make them public.

Do Not Believe the Chinese
Not one of the European powers believes the dispatch from Conger genuine. Even the American consul, Goodnow, at Shanghai adopts that theory. They say that the Chinese secured an old message of Conger's and forwarded it as a reply to Hay.

The full text of the imperial decree of July 17, transmitted by Viceroy Lin is given out. He blames the Christian missions as the origin of the troubles; orders protection to foreigners; deprecates the death of the Japanese chancellor and German minister and promises punishment for the murderers.

Japanese Rout Chinese.

St. Petersburg, July 23.—[Special Telegram]—A Chao Foo dispatch says that a body of Chinese reconnoitering near Tien Tsin encountered a force of Japanese cossacks who routed them, taking many prisoners. Eight Chinese and one cossack were killed.

Washington, July 23.—[Special Telegram]—Dr. J. C. Ellis who claimed to

have received a message last Friday from one of Conger's party, said this morning that he had received another from the same source; that all were safe up to Saturday afternoon, and still besieged by the Chinese, but were gradually holding their own. The authorities here don't place much credence in these "dispatches."

Secretary Long has received a cablegram from Remy stating that the latter will go to Feron and to Tien Tsin to obtain information regarding the situation there.

Russian for Commander.

St. Petersburg, July 23.—It is declared that the Czar with the consent of the allied powers, has just appointed the famous Russian strategist, Gen. Dragomiroff, governor of Kieff, commander in chief of the international army. Gen. Dragomiroff will leave soon for Tien Tsin.

Chinese Minister Ordered Out.

The foreign office has notified the Chinese legation at St. Petersburg that its diplomatic and official connection with the court of his majesty is at an end. The minister and his subordinates have received an order to quit Russia immediately, their safety in transit to any frontier point they may name being guaranteed.

State of Siege in Siberia.

An imperial ukase issued today orders that a state of siege be proclaimed in the military districts of Siberia, Turkestan and Semiretchinsk, and that all residents in those districts be called to the colors.

ALLIES CAPTURE A CHINESE FORT

American and British Troops Make a Brilliant Dash

Chee Foo, July 23.—A detachment of American troops, assisted by some English Fusiliers, made a brilliant dash against a large force of Chinese at Tien-Tsin. The object of the dash was to silence or capture a battery of heavy cannon which had been doing immense damage. The charge of the Anglo-American troops led them across an open space, where they were exposed to a heavy fire. The fort that they were after was captured after a very sharp fight, and eight large modern guns with all their accessories were taken. The allies at once turned the battery upon the Chinese and inflicted a heavy loss. Neither the Americans nor the British lost a single man.

Marines Go 500 Strong.

Washington, July 23.—Five hundred United States marines have started from this city direct for China. They were placed on a special train bound for San Francisco, where they will cross the Pacific on an army transport. This is the largest body of marines that has yet been dispatched to the east, and the departure was made conspicuous by the presence of Gen. Heywood, the commandant of marines, and the full marine band. Maj. Dickins commands the detachment.

Corea Sends Troops to Frontier.

Yokohama, July 23.—The Korean government continues to send troops to the frontier, a collision with intruding Chinese having already occurred. The Japanese papers express sympathy with the unfortunate emperor of China, but are unanimous and emphatic in declaring that an alliance between China and Japan is quite impossible.

FRANCE NAMES TERMS.

Tells Emperor Kwang Hsu Four Conditions Governing Mediation.

Paris, July 23.—At the council of ministers the ministers of foreign affairs, M. Delcasse, read a telegram from the emperor of China asking the mediation of France with the foreign powers. The telegram was signed by Kwang Hsu, and not by Pub Chan, the son of Prince Tuan. The reply given by M. Delcasse was that the request would be considered only upon absolute knowledge that the following acts had been accomplished. 1. That efficacious protection and absolute freedom of communication have been assured between the French minister at Peking and his colleagues of the diplomatic corps and their respective governments. 2. When Prince Tuan and the high functionaries responsible for the actual events have been dismissed by the government to await inevitable punishment. 3. When the authorities and bodies of troops throughout the entire empire shall have received an order to cease hostilities against foreigners. 4. When measures have been taken for the rigorous repression of the "boxers." So long as these necessary guarantees are not furnished there is room only for military action. M. Delcasse notified the cabinet that all the powers had responded favorably to the proposition to prevent the exportation of armies to China.

ALL MINISTERS REPORTED SAFE

News Comes from Governor of Shan Tung Province.

Washington, D. C., July 23.—United States Consul Fowler cables from Che Foo that he has received the following message from Yu Shien, the governor of Shan Tung province: "I have just received definite information that the various ministers in Peking are well, and the proper Chinese authorities are devising measures for their rescue and protection."

BRYAN'S ELECTION MEANS DISHONOR

SENATOR HOAR'S OPEN LETTER
TO ANTI-IMPERIALISTS.

Republican Party and President McKinley Committed to Policy of Giving Philippines Local Self-Government—Anti-Imperialists Nothing to Expect From Democratic Nominee.

Worcester, Mass., July 23.—Senator George F. Hoar has issued another open letter in reply to the complaint made by ex-Secretary Boutwell that the latter's position had been misstated by Senator Hoar in his letter to Secretary Winslow of the Anti-Imperialistic league. In the course of it he says:

"While President McKinley has undertaken to subdue the Philippine islands, and declares they belong to us and not to the people who dwell in them, making in that declaration a great mistake both of principle and of policy, yet both he and the republican party have committed themselves to secure to their local self government as far as they shall be found fit for it, and being found fit for self government and clothed with self government, their independence will surely follow.

Dishonor in Bryan's Election.

"I see no other road out of this business. The election of Mr. Bryan means dishonor and disaster to the American people at home, and it will not in my judgment, in the least help to the correction of the great mistake which we have made.

"I think President McKinley and the republican party have made a mistake. I expect that they will be persuaded to rectify it and atone for that mistake so far as it can be rectified and atoned for, but I expect nothing from Mr. Bryan. I expect nothing from Tammany Hall. I expect nothing from the populists that govern our great central cities. I expect nothing in that direction from the solid south, though the solid south contains now, I know, many honest and patriotic men.

"I expect that what is to be done for freedom and justice in the future is to be done by the party that stood for freedom and justice in the past, in spite of one mistake, believing themselves honestly to be standing for freedom and justice now.

Will Trust McKinley.

"I think the Philippines belong to the Philippine people. I think that people have a right to such government as they think good for themselves, and that we have no right to give them such government as we think good for them. I lament the great mistake that has been made. But it has been made. We have now to deal with the future.

"I believe the men who made that mistake, including the president, made it honestly, but I believe they mean to establish a good government in the Philippine Islands now. They mean to establish a good government there. They are disgraced forever if they do not do it. Local self government will surely bring in the end independence to the people who desire and demand it.

World's Fair Club Picnic

Beloit, Wis., July 23.—[Special]—The World's Fair club held its annual picnic at Laphier's park yesterday at which 500 men from this city and Rockford and Janesville were present. There were games of all kinds and a fine dinner was served.

TWELVE DEAD AND ELEVEN WOUNDED

Casualties in Philippines During the
Past Week—Aguinaldo Sent
Amnesty Proposals.

Manila, July 23.—It is officially reported that last week 200 insurgents were killed and 130 surrendered or were captured. One hundred rifles were taken. Twelve Americans were killed and eleven wounded. This includes the casualties of Col. William E. Birkhimer's engagement with the force of the 28th volunteer infantry, who attacked 200 insurgents entrenched two miles east of Tsal, killing thirty-eight. A detachment of the signal corps while repairing wires was twice ambushed.

Officer Returns on Parole.

Captain Charles D. Roberts of the 35th volunteer infantry, who was captured by the Filipinos last May has arrived here on parole. He will not return to captivity.

Senator Buerkamano last Thursday sent to Aguinaldo by means of Aguinaldo's mother the amnesty resolutions adopted by the meeting of representatives of Filipinos here on June 21, together with Gen. MacArthur's answer to them, and other documents bearing upon the restoration of peace. It is understood that Aguinaldo will summon his advisers and that a reply may be expected within a month.

Filipinos here will give a banquet next Saturday in celebration of President McKinley's order of amnesty.

Mrs. J. C. CHADWICK and Mrs. Cheno-worth of Monroe, Wis., are visiting friends in this city.

CALAMITY HOWL IS NO MORE AN ISSUE

PROSPERITY WEST DEPRIVES
BRYAN OF CALAMITY CRY.

States Carried by Silver Leader Four
Years Ago on Hard Times Plea Now
Have Bountiful Crops and Farmers
Are Enjoying Prosperity in Full
Measure.

New York, July 23.—William J. Bryan carried several Western States four years ago largely on a "calamity" campaign, say the republicans, who contend that had the farmers been prosperous in those states in 1896 the democrats would have lost it all.

Dispatches to a New York paper from the states carried by Mr. Bryan show a different condition of affairs in 1900 than was the case four years ago. With few exceptions, the cereal crops are vastly larger than in 1896 and of much greater value, while in all branches of trade, commerce and manufactures there has been a remarkable advance.

Farmers have paid off their debts and have more money in banks than ever before, labor finds employment every where and every class of citizens is sharing in the remarkable wave of prosperity.

Iowa, which Mr. Bryan did not carry, is not behind the other western states in the "sawing of increased good times."

Splendid Kansas Crops.

A dispatch from Omaha says: "An extraordinary corn crop in Nebraska has been assured by the general rains of the last week. The splendid wheat crop will have been completely harvested by the close of July, if all the men required for the service can be secured, and prosperity throughout this section of the west is increasing daily."

Work at Point of Shotgun

A telegram from Denver says: "Prosperity abounds on all sides and there is not a single industry languishing in this state. The only question, from the farmer to the machinery manufacturer, is how to produce enough to keep pace with the demands.

"Labor is in good demand. The railroads recently advanced wages of unskilled men on the sections 25 per cent. On the western slope of the Rocky mountains the farmers have taken to kidnapping tramps and stealing section men wherever the crops demand immediate attention to save them from loss.

Great Riches for Kansas

Kansas sends the following report from Topeka:

As compared with the condition in 1896, prosperity is general throughout Kansas this year. There have been no total failures of crops in the last four years. Farmers have paid their debts, and a majority now have substantial bank accounts.

"Kansas will raise this year the largest wheat crop in her history, estimated by crop experts as ranging from 80,000,000 to 100,000,000 bushels.

"The farmers expect to get about \$60,000,000 for this crop, or only \$20,000,000 less than the entire amount of agricultural products of the state sold for four years ago."

STATE TROOPS TO PROTECT CHINESE

Wyoming Miners Improve the Oppor-
tunity to Commit Outrages
on Celestials.

Cheyenne, Wyo., July 23.—A number of outrages have been committed by foreigners upon the Chinese residents of Rock Springs, a coal mining town 200 miles west of here on the Union Pacific, during the past few days.

The state authorities, fearing a general movement against Chinatown, where more than 500 Chinamen reside, have ordered several companies of troops to be in readiness to move to the scene.

Probably two companies of infantry will go to Rock Springs tomorrow, when martial law will be proclaimed.

Feeling among the foreign laborers at Rock Springs against the Chinese is at fever heat, but the state authorities will do everything possible to protect the Chinese and prevent bloodshed.

COLON TAKEN BY THE REBELS

Colombian Insurgents Are Reported to
Be Making Gains.

Kingston, Jamaica, July 23.—Captain Moller of the German steamer Florida, which arrived here today from Colombia, reports that the government troops entered Colon from Panama on July 15, the latter city having fallen into the hands of the rebels.

He also asserts that Colon is now in possession of the rebels, having been easily taken on July 16 without a fight. Sabanilla, in the department of Bolivar, is surrounded by the insurgents.

Dig Fire in St. Paul.

St. Paul, Minn., July 23.—[Special Telegram]—Fire early this morning destroyed the plant of the St. Paul Cold Storage warehouse. Loss \$800,000, mostly insured.

Mr. and Mrs. L. C. Sharp and son and Mr. and Mrs. Albert Knuth and daughter, who have been camping on the shores of Rock river near Edgerton, returned home Saturday afternoon.

MULLEN IS EXECUTED TODAY

Prison Mate of "H. B. Molineux Goes to
the Electric Chair.

Sing Sing, N. Y., July 23.—[Special Telegram]—Warden Johnson of Sing Sing prison executed Joseph Mullen in the electric chair this morning for the murder of his wife, Johanna, in June 1898.

Mullen was visited last night by the Rev. Fathers Smythe and Creedon. Mullen has never received a visit from a relative or friend since he has been in this prison. He said he was not afraid to die and he went bravely to the chair.

Roland B. Molineux is an adjoining cell but he was indifferent to the preparation being made to kill Mullen. Mullen was once offered a five year sentence if he would plead guilty to manslaughter but he refused and was condemned to death.

TOWNE WILL STICK TO HELP MR. BRYAN

WILL NOT WITHDRAW AS VICE
PRESIDENTIAL CANDIDATE.

Fear That the Substitution of Steven-
son Would Lose the Nebraska
Thirty Electoral Votes—Populists
Were Getting Uneasy Over the De-
lay—Are Anxious to Notify.

Lincoln, Neb., July 23.—The populists have won out. Towne will not withdraw from the populist national ticket as the vice presidential candidate of that party. The official announcement has not yet been made, but it will be in a few days, as soon as the national committee meets, some time during the week.

When Towne left here ten days ago he was very frank in his statement that he did not wish to remain as a candidate, but was willing to abide by the judgment of the party leaders. At that time Chairman Jones was strongly of the opinion that Towne was taking the right course, and in this opinion he was backed up by the other members of the executive committee here. Mr. Towne said he would do what Mr. Bryan said.

Mr. Bryan would not say, and it was finally determined to await the state conventions of the fusion populists and the middle-of-the-road populists. The sentiment in the former was strong against substituting Stevenson for Towne, and the attendance at the latter demonstrated an alarming anti-fusion strength.

The fact was laid before the democratic national committee that if Towne was withdrawn and Stevenson substituted Bryan might lose the thirty electoral votes represented by Nebraska, Kansas and the two Dakotas.

Electoral Ticket Endangered

In each of these the populists are numerically stronger than the democrats, and the disaffection over the substituting of an old line democrat and the one-time running mate of Grover Cleveland promised to be of such proportions as to endanger the electoral ticket.

The date of the populist notification of Mr. Bryan has not yet been fixed, but the populists are getting rather anxious to have it over with, so that they may enter upon the prosecution of their campaign secure in the knowledge of who their candidates are. They will not be satisfied with the means adopted four years ago when Chairman Allen of the national convention notified Mr. Bryan by a letter, to which he never replied. Towne was notified at Kansas City, and his acceptance will now be in order.

Mr. Bryan still refuses to discuss what he will do after the Indianapolis notification, insisting that the national committee is the only source of information. It is doubtful, however, if he will take the talk of eastern trip, owing to the impatience of the populists to get through their ceremony of notification.

A STRONG CASE AGAINST HIM

Evidence Against Caleb Powers in the
Goebel Murder Case—Robert
Noakes on the Stand.

Georgetown, Ky., July 23.—The close of the second week of the Caleb Powers trial finds the commonwealth with less than a third of its witnesses examined, but with a much stronger case against the accused than it was generally believed could be made out.

One peculiar thing happened on Robert Noakes' cross-examination Saturday morning. He was asked three different times if he knew who killed Goebel, and each time he answered by asking the following question of the attorney:

"Do you mean the man who fired the shot?"

"Yes," said the attorney.

"No," answered Noakes each time. The inference from Noakes' question was that he did know that several men had been selected to do the killing, but which one of them actually fired the shot he did not know. Noakes will be re-examined by the prosecution tomorrow or later in the week. It is stated on reliable authority that the prosecution is already in possession of the assassin's name and can prove it positively.

Wants McKinley's Aid in
Restoring Peace With
the Great Powers.

APPEAL FROM EMPEROR

Washington Believes Conger is
Alive and is Preparing to
Attempt His Rescue.

UNITED STATES TO CUT A WAY

Washington, D. C., July 23.—China has appealed to the United States to mediate with the other powers to bring about a restoration of order and a renewal of regular diplomatic relations. This request reached Secretary of State Hay Saturday and has been communicated to the president at Canton. No reply has yet been made to it, but the administration stands ready to use the good offices of this government to establish amicable relations between the Chinese government and the powers. The request is understood to be similar to that made of the French government, though there is no evidence that China has asked for joint action by the United States and France.

Fear of Dismemberment.

It is suggested by administration officials that China in making this appeal to the United States is actuated by a fear that some of the other powers might make the disturbance the occasion for compensation in the way of territory and when the time came for final settlement the empire would be practically carved up and distributed among the several powers.

The United States is being regarded by the Chinese officials as being sincere in the declaration that the integrity of China should be preserved and it is for that reason that this government has been asked to endeavor to bring about an understanding with the powers which will enable the present officials to be straightened out and preserve the Chinese government.

U. S. May Attempt Relief Alone

It is not improbable that the United States will attempt the relief of Peking independently without waiting for foreign powers represented at Taku and Tien Tsin to co-operate. The administration is thoroughly impressed with the authenticity of the Conger dispatch and the necessity of immediately succoring the beleaguered foreigners.

Rear-Admiral Remy is now exercising his influence with the commanders of the foreign forces in the hope of persuading them to advance the time for the forward movement of the relief column from Aug. 15 to Aug. 1.

American Force of 3,700 Aug. 1

The skepticism of the European commanders and their refusal to give credence to the Conger dispatch render the probability of immediate action remote and the American admiral, while appealing for it, will be satisfied should the allies be prepared to march when Gen. Chaffee reaches Taku about Aug. 1. The Americans will then have 3,700 men on Chinese soil.

Europe Wants Certain Success.

It is confidently believed here that should all the European commanders persist in advocating delay the Japanese forces will heartily join the Americans. The Europeans share the views of their governments that the foreigners at Peking have been massacred, and that the column is punitive and cannot accomplish their relief. They are calmly biding their time, whereas the United States insists that the conditions as reported by Mr. Conger warrant the risk of sending a comparatively small force to cut its way to the Chinese capital.

True Flag Useless in China.

There are no means by which the forces at Taku and Tien Tsin can establish communication with Peking except by spies. Under ordinary circumstances a flag of truce could be used to ascertain the welfare of friends in a besieged city, but officers of the war and state department agree that it would be useless to attempt the use of a flag of truce in China. Adjt. Gen. Corbin when asked whether a flag could be used replied that no one could tell until the experiment had been tried. It would depend largely upon the decision of the Chinese commander who was approached. The chances were that the bearer of the flag would be decapitated.

ED. COUGHLIN OUT ON \$1,000 BAIL

WILL HAVE HEARING IN JANEVILLE, TUESDAY, JULY 31.

Pangs of Conscience for the Theft of a Horse 13 Years Ago and the Desire to See His Parents Led Him to Surrender to the Law—His Father Signs His Bond.

The Beloit News in telling of the story of the arrest of Ed. Coughlin in Janesville says:

Marshal Appleby arrived in Beloit with Coughlin at 6:32 and after getting supper at the prisoner's request took him to see his father, James Coughlin, who resides at 1062 Fourth street. The old gentleman was so overcome at the sight of his wayward son, that he fainted away. After he was revived he agreed to go his son's bail, and the officers and prisoners came back down town to have the necessary papers made out. The bond was fixed at \$1,000 for Coughlin's appearance at municipal court in Janesville, Tuesday, July 24.

Father signed His Bond.
J. W. Bates took the bonds out to James Coughlin, and the old gentleman at first declined to sign the paper, having changed his mind. But he relented after some talk on the matter and affixed his signature, and the paper was also signed by Daniel Coughlin, another son, and by the prisoner, who was then set at liberty.

Speaking of old acquaintances in the city last night Coughlin said he could stand the strain no longer. He had enjoyed no rest in the past twelve years—there was always the feeling that officers of the law were just behind him, and he moved from city to city to escape their clutches. For two years he had been working in Chicago, but could not get away from his conscience, and the desire to see his father before he died became so strong that he decided to come back, give himself up and stand the consequences.

Story of the Crime
On the night of January 6, 1888, William H. Maxworthy's two-year-old trotting mare was stolen from the barn. The animal was one of the speediest in the city, having worked out a mile in 2:25 as a two-year-old, and was valued at \$600. The theft was discovered early the next morning, and the authorities were at once notified and started to search for the culprit. He was traced to Janesville and back again west of the city, but all clues seemed to fail.

Notices were placed in the papers, and a deputy sheriff living near Durand, Ill., came upon one when he was looking for information in regard to another horse. He had only a day before visited a farm about two and one-half miles southwest of Rock City, Ill., and having seen a horse answering the description of Mr. Maxworthy's mare in the barn, he at once notified the latter in Beloit. Investigation proved that he had been correct in his surmises.

But the poor horse was in a deplorable condition. The animal had been driven until unable to go another step, and Coughlin had finally stopped at the farmhouse to get another horse if possible. He represented that he was working for Mr. Marshall, a cattle buyer at Durand on his way to Freeport on business. The farmer, however, did not care to let a horse go, and Coughlin went on toward Freeport on foot.

In the buggy Mr. Maxworthy found a lunch done up in a Rockton Herald, bearing on the label the name of John Donner of Shirland. Mr. Donner was seen and said that a man answering to Coughlin's description had been at his house and he had given him the lunch. Seen in Sioux City, Iowa.

Coughlin's description was telegraphed all over the country, but he managed to elude the officers every time. Once, six years ago, he was seen by the late Geo. Smith in Sioux City, Iowa, where he was working in a butcher shop. Mr. Smith was traveling for N. B. Gaston & Son at the time and at once wired Mr. Maxworthy that he had seen his man.

The sheriff was immediately notified, requisition papers were made out and the sheriff went to Sioux City to get Coughlin. The latter had in some way got wind of his coming, however, and left a day before he arrived. This was the nearest the authorities ever came to overhauling the culprit and had he not appeared and given himself up voluntarily, the chances are he never would have been caught.

The horse Mr. Maxworthy brought home, but the life had been taken out of the animal in the wild night's drive and he was soon obliged to kill the poor creature to put it out of its misery.

Great Tandem Race.
Harry D. Elkes, the American middle distance rider, defeated Edouard Taylor, the Frenchman, in a one-hour race at Volo. By mutual agreement only petroleum tandems were used for pacing, and each had an accident, which placed them on even terms. A grand race finally resulted in a victory for the American by but 250 yards, Elkes riding 55 kilometers 450 meters.

BROUGHT DOWN A RAIN.

Chemist in Missouri Works Successfully to Save the Crops.

Warrensburg, Mo., July 23.—Chemical rainmaking was tried here three times last year, and each experiment was followed by a good shower, so that when corn began to suffer again this year it was decided to try it once more.

Work began Wednesday afternoon. During Thursday night a heavy rain fell. Sulphuric acid and zinc are used. These generate hydrogen, which is lighter than air and rises. The theory is to induce a storm center by establishing an upward current of air.

Wednesday's experiment cost less than \$100 and was worth many thousands of dollars.

Many Troops in Africa.
London, July 23.—David Lloyd George, member for the Carnarvon district, elicited the fact in the house of commons the other day that over 12,000 troops have been sent to South Africa since the capture of Pretoria, which scarcely looks as if the war was over. The stern treatment now being meted out to the Boers by banishing them to Ceylon, and which is sending women into the Boer ranks, has created no little outcry among those who are opposed to the war, though the majority appear to believe no measures can be too severe in order to bring to an end the sanguinary struggle that is nearing its first anniversary.

Boys Attack Chinaman.
Peoria, Ill., July 23.—A crowd of twenty-five boys whose ages range from 10 to 15 years, attacked a Chinese laundryman here. They took a basket of clothes from him and threw him into the street. Then they threw rocks and clubs at him. The boys had a captain and when they chased him down Adams street they sang "Marching Thru' Georgia" and other patriotic melodies. The Chinaman escaped the attacks by taking shelter in a store and officers escorted him back to his laundry.

Five Passengers Are Killed.
Belfast, July 23.—In a collision outside Belfast long between the local passenger steamers Dromedary and Alligator five passengers were killed and more than thirty more or less seriously injured. In many cases the amputation of legs being necessary. There were 600 passengers on board the two vessels and terrible scenes followed the collision. It is feared that some others have been drowned.

MEN ALSO ADOPT THE SHIRT WAIST

FAIR SEX NO LONGER MONOPOLIZE THE GARMENT.

Pioneers are Snerered at—New York Millionaires, Ignoring Cruel Taunts, Have Discarded Their Coats—Haughty Cashier Made to Weaken in New York.

New York, July 23.—Women are no longer to monopolize the shirt waist. Man has long admired the shirt waist, more especially when it incased the joyous summer girl. Now he has incorporated the comfortable garment in his wardrobe of summer clothes.

What with the fair sex wearing men's hats, bells, suspenders, ties, collars and smart coats, it became necessary for man to make some sort of reprisal. Therefore he has fallen upon the shirt waist and taken it to himself. And then it was a man who invented the shirt waist anyway.

But the inauguration of the new garment is meeting with much opposition. The world is slow to welcome innovations. It will take determined efforts to stamp out the deep rooted idea that a man is not "dressed" unless he is carrying a coat. London is just discarding coats and high silk hats, and servants and horses are dressed with some regard for comfort and the weather.

The man with the shirt waist here is meeting with all the different kinds of discouragement that the professional martyr encounters. He is being put out of restaurants, barred from roof gardens, and when those things are not occurring to him he is being sneered at by his fellow citizens.

Put Comfort Above Custom.

This man in the shirt waist is just a plain summer man, without any coat or waistcoat. He wears a pink or blue shirt, and his trousers are held in place with a belt. The innovation consists in the fact that he leaves his coat at home. From the standpoint of logic he is all right. What there is against him is that he is a novelty and that he looks so aggravatingly cool.

Into the Astor House dining room went the man in the shirt waist this afternoon. He took a seat. The cashier came up and said in severe accents to the man in the shirt waist: "Have you no coat?"

"No," replied the man in the shirt waist.

"Well, then," the cashier decided in the manner of one giving an ultimatum, "we decline to serve you."

"But at Newport," continued the man, "everyone goes around like this, the Vanderbilts, the Astors, and, well, all the rest of the fellows."

"The millionaires?" inquired the cashier, beginning to relent.

"Yes," the man answered, "the millionaires. It's the new fashion just introduced."

Haughty Cashier Weakens.

"No one ever dined at the Astor House in his shirt sleeves," the cashier said, shaking his head. Then he thought a moment and asked: "You say the millionaires are doing it and that it's the fashion?"

"Yes," explained the M. in the S. W., "and hotel keepers who do not line up may be sued for all sorts of money and have to pay it, too. Now, may I eat here?"

"Well," the cashier said slowly, "if its the fashion it will have to go, but I have my suspicions. You see, we never know everything here, and it may be as you say. However, I'll give you the benefit of the doubt. Sit down and I'll send you a waiter."

The man in the shirt waist had won the day. He sat down and had some wine with his braised beef.

RETAIN THE OLD OFFICERS

Milwaukee Road Baggage Men Reelect Present Staff.

The following officers were reelected at the annual meeting of the Milwaukee road's Baggage men's Mutual Aid association, held at Fraternity hall, Milwaukee, yesterday:

Counsel—W. D. Carlick, Milwaukee. President—J. A. Dickey, Milwaukee. Vice President—F. Seaton, Chicago. Secretary—Treasurer—C. A. Ashard, Milwaukee.

Board of Directors—J. A. Dickey, E. W. Batten, E. D. Thurber, C. H. Forsythe, G. E. Vosburg, John Timmarsh, Milwaukee; W. L. G. Kato, W. B. Byrnes, G. W. La Roy, Chicago.

Mr. Dickey, the new president, has been employed in the baggage department of the Milwaukee road for many years, and is now chief clerk. He is well known among amateur musicians of Milwaukee as director of the Harmony Musical society, the oldest amateur musical society in the city.

The report of the president showed that four death benefits, amounting to over \$2,000 had been paid in the last year. The beneficiaries were the families of A. J. Keesley of Chicago and J. M. Crumme of Oconomowoc, who were killed in railroad accidents, and W. B. Wells of Marion, Iowa, and M. B. Hawkins of Elgin, Ill.

MISS DANIEL'S BIG WAGER

Offers to Bet \$10,000 at Three to One on McKinley's Election.

New York, July 23.—Maud Daniel, manager of the Wilbur Opera company, wagers to bet \$10,000 on McKinley, and in order to make her case plain, has issued this statement:

"Providence, R. I., July 21, 1900.—I have placed with Richardson & Hill, brokers, of Washington street, Boston, \$10,000 to be wagered on McKinley's election, at odds of 3 to 1. This money may be divided into sums of \$500 or more, and I accept the above firm, your newspaper or any reputable man as final stakeholder. This offer is genuine and will be substantiated by Richardson & Hill, who are prominent brokers. Respectfully,

"MAUD DANIEL,
"Manager Wilbur Opera Co.
Miss Daniel is one of the few women of today who are managing theatrical companies, and her business intelligence is well thought of in Rialto circles.

Tobacco Sales.

250 cases, crop of 1898, Pennsylvania binder leaf at 11 to 12 cents.
1200 cases, crop of 1898, Zimmer, Spanish, at 16 to 17 cents.
1000 cases, crop of 1899, Big Flats, pt. Total, 2900 cases.

Mrs. Mary Murray.

After several months of patient suffering with heart disease, Mrs. Mary Murray died at the home of her daughter, Mrs. J. W. Frost, Saturday afternoon, July 20, 1900, in Tipperary, Ireland, and came to America in April, 1844, settling in Rome, N. Y. She removed with her husband to Beloit, Wisconsin, in 1866 and there resided with her family until about four years ago, since which time she has resided with her daughter four miles east of this city. She leaves one son, James Murray of Beloit, a daughter, Mrs. Frost of the town of La Prairie, and one brother, Richard Kerwin of Ireland. The funeral was held this morning at 10 o'clock at St. Mary's church.

A Day of Sun-Dogs.

The peculiar condition of the atmosphere over southern England and western France on January 11th gave rise to extraordinary exhibitions of solar halos, or sun-dogs, described in the scientific journals of both countries. The phenomena were very beautiful, the sun being surrounded with concentric circles and inverted arches showing rainbow colors, while mock suns appeared among the halos. They were caused by clouds of minute ice-crystals floating at a great elevation.

VOTE FOR MCKINLEY.

REPUBLICAN PARTY SHOULD BE CONTINUED IN CONTROL.

What Protection Has Done For the American Workingman—Products of Cheap Foreign Labor Excluded, Wages and Prices Considered.

The Republican party has good cause to ask the voters of the country to continue it in control of the government and to re-elect President McKinley. The results which have followed the application of Republican principles to the administration of the United States have not been accidental. Aside from the conditions arising from the war with Spain, no one will dispute that the nation's affairs are far better than they were under the Democratic administration which preceded the election of McKinley. All financial and commercial conditions have improved. The riots incident to the strikes during the Cleveland administration were the acts not of strikers, but of, starving and unemployed men.

Within two years after President McKinley was inaugurated all of the idle of 1896 were at work, so much so that in the strikes of 1900 it is not possible for employers of labor to fill the places of men going out on strikes. Never before have strikers had so many victories over employers; and never before have employers been so able to meet the demands of the strikers. In every line of employment of labor there has been an advance in wages more than equal to the advance in the cost of living products.

It is now seen that production has run beyond the limits of demand in many lines, and this will adjust itself by lower prices in 1901 than in 1900. The adjustment has been going on for three months, and now prices in all lines of iron materials are lower than in 1899. One year ago the trusts and large manufacturers advanced prices, and when they got beyond reasonable limits the consumption ceased and values had to fall. Manufacturers have thus learned that they cannot maintain unreasonable prices by stopping production. They have also learned that they can run their plants to full capacity if the prices of their commodities are reasonable.

The tariff for protection excludes the products of cheaper labor in other countries. The gold basis of our monetary system enables the purchaser to buy the raw materials at the lowest prices in any market in the world. The American mechanic is today without a superior on earth. He does one-third more work in a day of eight hours than the men of his trade in any part of Europe, and he does it better. He is therefore entitled to one-third higher wages than are paid in European countries which would like to compete with us for our home market. An increase of wages to American employees does not mean an increase beyond reasonable limits in prices charged the consumer. The rule is coming to be understood that wages and prices must be reasonable if the products are to be sold, and this rule is being gradually applied and adjusted between employers and employees. In no period of our history has its march been so rapid or so marked as under the administration of McKinley. Why?

No man who ever filled the presidential office has had so broad an experience in the economic questions of labor and its products as has Mr. McKinley. For 35 years he has watched and studied these questions, and as president he has shaped as far as he could all results to the ends of justice between employee, employer and consumer of manufactured products. Years ago he saw that we were gradually changing from an agricultural to a manufacturing people. He saw that we must adjust our legislation to meet the coming change and that such changes must be gradual, so that there would be no violent shock to any interest.

The Currency Question.
Senator Wolcott said in his speech at Philadelphia that "a Democratic president could paralyze the operation of the new currency law as effectively as if it were wiped from our statute books." Democratic success would reopen the whole currency question and end in a battle for irredeemable paper money. No intelligent sound money man can have a doubt on that point.—St. Louis Globe-Democrat.

A Fitting Climax.
A Republican victory in Nebraska this year would be a fitting climax for the Democratic campaign on false issues.

PROTECTION IS AT STAKE.

If the People Value Prosperity, They Must Vote For McKinley.

"There is not a state in the Union today," said Senator Lodge in his speech before the Republican national convention, "which could be carried for free trade against protection." There is not a free trader in the country who possesses a degree of discernment worth consideration who does not know that this statement is absolutely true.

As Senator Lodge said further on in his speech, "never was a policy more fully justified by its works" than our tariff policy. And it has been justified in every state in the Union and in every section of every state. The more wily of the free traders are by raising side issues attempting to make the people of the country forget or overlook the fact that the tariff issue is involved in the coming presidential election.

With a rampant free trader like Bryan, however, pitted against President McKinley, who is and for long has been the very head and front of American protectionists, the continuance of our protective policy is just as much at stake as if there were no other issue before the country. As the people of the country value their comfort and prosperity they want to make no mistake about that fact.

SUBSIDY FOR OUR SHIPS.

Facts Concerning the Operation of the Proposed Bill.

Honest criticism of the bill for the protection of the American merchant marine is welcomed by its advocates, but reckless misrepresentation seems to be the practice of the organs that oppose it.

Here, for instance, is the Boston Post declaring that "the Standard Oil fleet and the American line, owned mainly by the Standard Oil magnates, will take about 50 per cent of the bounty provided by this bill." This is absurd. The Standard Oil tank steamers could not possibly earn more than \$68,194 in subsidy out of the \$9,000,000 appropriation, and the understanding is that they will stick to their foreign flags and cheap labor and not come under the stars and stripes at all. As to the American line, its four fast ships will earn about \$1,300,000 a year, and the amount that can be paid to such ships is expressly limited by the bill to \$2,000,000.—Boston Journal.

McKinley and Roosevelt.

No political party has ever met under such favorable circumstances as did the Republican national convention in Philadelphia. The unanimous nomination of both candidates for the offices of president and vice president was unprecedented. Mr. McKinley has earned and well deserves the compliment. The prosperity of the country under his administration alone merits it without taking into consideration his able conduct of our affairs of state during the war with Spain. There was a notable difference between the harmony of the Republican party at St. Louis in the convention of 1896 and at Philadelphia. Last month every Republican was working for the strongest ticket, and there was a unanimous verdict for McKinley and Roosevelt. The latter has endeared himself to the people by his clean and honest administration of such public offices as he has held as well as by his bravery in Cuba. They are both strong candidates politically and personally and will gain in strength as the campaign progresses.

Our Exports.

Exports of American products and manufactures in May amounted to \$113,508,000, an increase of \$10,000,000 over the exports in May of last year. The first 11 months of this fiscal year our total exports amounted to \$1,286,214,534, an increase of \$155,585,459 over the exports in the corresponding 11 months of 1899.

Points For Farmers.

The corn crop of the United States was worth almost \$85,000,000 more last year than in 1895.

When people can afford to buy potatoes, the farmer gets better prices for them. That is the reason why last year's potato crop was worth \$10,500,000 more than the potato crop of 1895.

Farmers who grow flax should recollect that the flax crop of the United States was worth 100 per cent more money last year than in 1895.

Cotton growers realized \$72,000,000 more money for their crop last year than they did in 1895. That was the result of opening the mills.

Farmers paid \$828,000,000 for the experiment of electing a Democratic president in 1892 through the loss in the value of their live stock alone.

THE REAL IMPERIALISTS

St. Louis Globe Democrat—In his speech in reply to the notification committee President McKinley made telling use of a word that is a large part of the democratic stock in trade. The republican party, the president said, had freed the slaves, and to it "has come another supreme opportunity, which it has met bravely in the liberation of 10,000,000 of the human family from the yoke of imperialism." This reference to the Philippines presents the subject from a point of view exactly opposite that found in the democratic platform. It is imperialism that has been destroyed, not created, in the possessions acquired from Spain. When the treaty was under discussion even the democratic papers did not favor the return of the Philippines to the government that had owned them for hundreds of years. The imperialism of Spain was removed forever. Another necessity of the case was to keep the archipelago from falling into the hands of some other monarchial country, which would have been merely to replace one kind of imperialism with another.

The democratic charge of imperialism therefore rests on the purpose of the republican administration to keep the Philippines and govern them in accordance with the principles on which a free nation is founded. But the democratic recommendation is to set up the Philippines in a republic of their own under our protection. If this is not done the policy is denounced as imperialistic. The fact of the matter is that human ingenuity could not devise any practical system to carry the democratic proposition into effect. There are sixty tribes in the Philippines. To put all under the control of one would result in a despotism far more horrible than Spanish imperialism. If more than one republic is suggested, shall there be one for each tribe or one for each island, and what country on earth would be able to guide and protect ten, twenty or sixty half civilized republics successfully? President McKinley is right. All that has been done in the Philippines is precisely the reverse of imperialism.

London, England, has 13,564 policemen, or 19 to the square mile. Sixty per cent. of them are on night duty. Janesville has—but let it pass.

Samuel Gompers, democrat, president of the American Federation of Labor, draws the following "deadly parallel:"

1893. 1899.
Since August of this year we have been in the greatest industrial depression this country has ever experienced. The cause of this is not a general overproduction, as it is no secret that the generation to say that the wages of the more than 3,000,000 of organized workers have not followed the country's instances the try are without employment, and have been since the time named.

A gunner's life was saved in South Africa by the bullet lodging in a pack of cards that he had in the pocket of his khaki jacket. A bible, however,

would have stopped the bullet just as well, and the example would have been more elevating.

The Kenosha News, republican, is not pleased with the present political situation. It says:

There is every prospect that Kenosha county will send a delegation to the state convention and no other instructions than to fight for Follett. The feeling of regret at the withdrawal of Whitehead would quickly crystallize into support of any other candidate whose republicanism has been tried and not found wanting. It goes without saying that the presentation of Senator Spooner's name would assure the support of the Kenosha county delegation.

The Kenosha Gazette, Democratic, suggests to The News that it start a boom for Z. G. Simmons of Kenosha, saying that the First district should feel honored in supporting him.

Beloit, it is said, will grant a franchise to the Rockford, Beloit and Janesville Electric railway company. No town can have too many railroads and in these days of progress, trolley lines are next in value to steam lines.

Beloit has enacted a dog license ordinance, and if it is effectively enforced as the Janesville ordinance was, Beloit will soon be the doggiest town in the county.

The caucuses this evening will be open from 8 to 8 o'clock. Attend them, and register your choice for county officers.

An enthusiastic caucus means a lively interest in the political welfare of the country. Go and vote tonight.

The Elkhorn and Lake Geneva delegates to the republican state convention were unopposed.

Attend the republican caucuses tonight, and do your duty as a citizen.

The county political kettle is now "ablin."

Two Sisters Burn to Death.
Chicago, July 23.—Margaret Poch, 11 years old, made a desperate attempt to extinguish flames which enveloped her sister Annie, 17 years old. Both girls died at the Passavant hospital a few hours later. An explosion of gasoline in the rooms occupied by the Poch family, the second floor of 381 North Franklin street, caused the disaster.

Chinese on the Border.
Fort Worth, Tex., July 23.—Reports from the border say hundreds of Chinamen are being landed in the Republic of Mexico and are making their way to the border in an effort to get into the United States. It is said thousands of Chinamen are coming to America to escape the war raging in the Chinese empire.

LESS THAN 300,000 FOR MILWAUKEE

Population of Newly Acquired Districts to Be Credited in a Foot Note in the Report.

Milwaukee, Wis., July 21.—The census report on the population of Milwaukee for 1900 will not contain the newly annexed territory of West Milwaukee and Silver City; therefore it will be shown that the population of the city is less than 300,000; and the most that can be expected is 285,000 or 290,000.

The report will show the population within the limits as they existed previous to June 1, but in a foot note the city will receive credit after a fashion. This, however, will not give Milwaukee the place in the list of big cities that it is entitled to.

A year ago A. G. Wright, publisher of the city directory, said in the introduction to his book that the canvass showed Milwaukee to have a population of 290,000. Mr. Wright is supervisor of the present census of the city and county, but under the rules of the bureau he will say nothing about the recent enumeration, even omitting the usual preface to his directory, which always contains his conclusions, based on the number of names in the book.

EXCURSION TO CLEAR LAKE

One Hundred and Twenty-Seven Attended from Janesville

The excursion to Clear Lake, Iowa, Saturday night, over the C. M. & St. P. R. R., was a record breaker. People flocked from all over the southern part of the state to take advantage of the low rates offered by the road to take a trip covering so much territory.

The excursion was in charge of D. H. Moses of Madison, Wis., district passenger agent, who did all in his power to make the trip one of enjoyment; and to him much credit is due for the good time experienced by all under his care. The excursion consisted of two trains of ten coaches each, with combination smoking and baggage cars, run fifteen minutes apart.

When the trains reached Prairie du Chien the excursionists numbered over nine hundred. The number of tickets sold was a few short of twelve hundred, over nine hundred being sold on the east end of the division and the balance on the other side of the Mississippi. Janesville furnished her share of the excursionists, 127 tickets being sold at the local office. Whitewater turned out 175, Milton forty, Milton Junction sixty-five and other stations along the line in proportion.

There was very little delay in the running time of the trains and Clear Lake was reached about on time. The day was spent in visiting points of interest around the city and at the pleasure resorts about the Lake.

Most of the excursionists came home on the special which left Clear Lake at 8 o'clock last night and arrived home this morning a tired, but happy lot, well pleased with their long trip.

STUPENDOUS EXPORT YEAR.

American Foreign Trade Makes a New Record.

Over \$40,000,000 worth of manufactures were exported from the United States in the month of May, and \$25,000,000 worth of manufacturers' materials were imported into the United States. This is a higher record both in exportation of manufactures and importation of manufacturers' materials than was ever made in any preceding month in the history of our foreign commerce and manufactures.

This assures a total exportation of manufactures in the fiscal year of 1900 of fully \$425,000,000 and an importation of manufacturers' materials of \$300,000,000, which will make the record in both exports of manufactures and imports of manufacturers' materials much higher than that of any preceding year. On only four occasions has the importation of manufacturers' materials reached the \$200,000,000 line, while in the year just ended it will be, as already indicated, about \$300,000,000, an increase of 50 per cent over the average of the last five years. Exports of manufactures in 1899 were \$338,000,000 and will be fully \$425,000,000 in 1900, an increase of nearly or quite \$90,000,000, while no earlier year ever showed an increase of as much as \$50,000,000.

The total importation of manufactures for the year will aggregate about \$325,000,000, and, as already indicated, the total exports of manufactures will aggregate about \$425,000,000. Prior to 1898 imports of manufactures were 2 1/2 times the amount of exports of manufactures. In 1899 they were nearly 50 per cent greater than the exports.

In 1898, for the first time, the exports of manufactures were greater than the imports of manufactures, the figures for that year being respectively: Imports of manufactures, \$226,000,000; exports of manufactures, \$290,000,000. Since that time exports of manufactures have steadily increased and, as above indicated, will now exceed the imports of manufactures by about \$100,000,000.

MILLIONS Eat No Meat.

In India, China, Japan and adjacent countries are about 400,000,000 people, strong, active and long-lived, who eat no meat. The Turkish porter, on a daily ration of rice and dates, will jog along with bent head under a load that would crush a western man. Darwin tells us that the Andean natives do a day's work of 400 foot tons, nearly twice the work of an ordinary laborer, on a diet of bananas.

HOME LOOKED LIKE A SLAUGHTER HOUSE

**ARNER ARRESTED AGAIN FOR
CRUELTY TO HIS CHILDREN.**

**Went Home Drunk and Beat the Little
Motherless Babes Until Blood Run
in Streams—He Has Been in "the
Habit of Doing Such Inhuman
Work."**

James Arner, residing on the McCue farm in the town of Beloit, was brought into the municipal court this morning charged with assault on his young son Thomas, a lad 12 years of age. Arner entered a plea of not guilty. Judge Fifield held him for trial July 30 at 10 o'clock, in default of \$300 bail he was committed to jail.

This is not Arner's first appearance before the court on the charge of abusing his family. He was arrested once before for assault, and forcing his children to drink whisky, and on one occasion forced one of the boys to drink a pint or more. He is continually coming home drunk and when under the influence of liquor is in the habit of beating and abusing his family of small children.

A telephone message was sent to the jail last night by parties in Afton saying that Arner was drunk again and was abusing and beating his family. Deputy Sam Brown and Deputy I. U. Fisher immediately hitched up a team and drove to the scene of the disturbance. When they arrived at the house Arner was having a high old time beating the children and making himself a terror to his family.

He was immediately taken in charge by Deputy Brown. Thomas, the complainant, and the oldest of the children, had a black eye and his face cut and the rest of the family showed the effects of a recent beating.

Deputy Brown said the house looked like a slaughter pen blood being spattered over everything from the cuts and bleeding noses of the children caused by the beatings given them by the father.

The children, Thomas, Myrtle, Mary, Julia and a younger child, range from twelve years. They all show the effects of numerous beatings and punishments inflicted by the inhuman father. They are in destitute circumstances and Supt. Konyon has been notified to look after them.

The children told the officer that they had scarcely anything to eat. Arner when asked by the court this morning as to whether they had enough to keep them for a week replied that they had some meal and potatoes.

THREE BOYS TAKE HORSE AND BUGGY

**Mrs. Godfrey of Lima the Victim of a
Serious Lark by Boys About
the Town.**

While Mrs. Godfrey of Lima, Wis., was doing some trading this morning three boys, named Warner, Sullivan and Nutsinger, about eleven or twelve years of age, took possession of her horse and buggy which she left tied near Mungler's grocery store, and drove off. They informed some friends that they were going to Indian Ford fishing. When Mrs. Godfrey returned from shopping about eleven o'clock she found her horse and buggy were missing and not being able to find them after a search, she reported the matter to the police. The horse was finally discovered hitched to a post in front of Mrs. Clark's home on North Bluff street and returned to its owner.

IRON MINE ON A ROCK COUNTY FARM

**Farmer John Malone, Town of Johns-
town, May Have Made a Very
Rich Discovery.**

John Malone, town of Johnston, has discovered what he thinks to be and what experts tell him is an iron ore mine on his farm. He bought the place some three years ago and the spot where the ore shows above the surface is about 8 feet square. Grains of iron ore will not grow on this spot and that is what called Mr. Malone's attention to it. He has dug down about three feet and the material is full of iron and sulphur.

SMITH FAMILY IS
IN SECOND PLACE

New Directory Is Out and the Johnsons
Lead All the Rest—Population Estimated at 15,213.

The new Janesville City directory issued by Thomas D. Osborne of Freeport, Ill., is now ready for delivery. It is a very complete work, and the best directory that has been issued in Janesville in many years and is one of the compilers can feel proud of. It is printed in large clear type on good paper and is substantially bound. The list of inhabitants of the city is very complete, every effort being made to get all. From the work we find Janesville has a population of 15,213, which is an increase during the last two years of 1,035, showing a healthy growth.

In looking over the list of names given we find that at last the Smith family will have to take second place, the Johnsons having the best of them by one, there being 56 Smiths and 57 Johnsons. There were also 48 Clark's, 35 Browns, 26 Miller's, 22 Thompson's, 22 Welch's, 21 Bakers, 21 Bugge, 21 Connors, 16 Andersons, 16 Wards, 15 Cunningham's, 15 Parkers and 14 Allens.

The new directory is a work that all subscribers will be pleased with and no office should be without one. Next to a dictionary they are one of the most necessary books in an office.

QUIETLY HITCHED UP AND GOT A WIFE

**GEORGE LITTLE OF CLINTON
SAID NOTHING TO NOBODY.**

United Workers Gave an "S" Social and Supper at Summerville July 20—Social and Personal Notes From Clinton and Other Rock County Towns.

Clinton, July 23—George Little, one of our enterprising young men, kept his own counsel one evening last week, when he hitched up and drove off with no unusual amount of display; so his friends were very much surprised when word came soon after that he had taken unto himself a wife, which event occurred at Belvidere Tuesday, July 17. The bride being Miss Eunice Ellsworth of Manchester. Hearty congratulations await them on their return.

The "S" social and supper given by the United Workers at William Stewart's, at Summerville, Friday July 20, was a very pleasant and unique affair. Each article on the bill of fare commenced with the letter S, the garnishings and decorations were with flowers commencing with the same letter, and sweet music was supplied during the supper hour by Handen's stringed instruments. The ladies names commenced with S that conducted the social.

J. C. Howarth and wife and Miss Cora Mason have returned from a ten days' outing at the Wisconsin Delta. They returned by the way of Devil's Lake remaining a day or two. Mr. Howarth had excellent success with his camera obtaining some very fine views of interesting points.

Hon. S. S. Jones and Mrs. Byron Snyder have been honored by receiving from Gov. Scofield credentials appointing them delegates to the Farmers' Historical congress held in Colorado Springs, Colorado, August 21 to 31, 1900.

Irving Inman of Bradford, has recently sold his farm of eighty acres to Mr. Johnson at \$80 per acre. Mr. Inman is contemplating moving his family to Beloit.

SOUTHERN INDUSTRIES.

It Is Under Republicanism That They Originate and Thrive.

The following paragraph, from a carefully written financial and industrial report published in the Chicago Evening Post, is very significant of the rapid development of several industries in the southern states:

"So far as the manufacturing outlook is concerned everything still appears to be favorable. It is estimated that at least \$100,000,000 is now going into new industries in the south. The southern cotton mills are making phenomenal earnings, and about 100 mills are under construction, while many of the established concerns are enlarging their plants. New coal and ore mines also are being opened as rapidly as possible, and the prospects are that the south's annual output of 40,000,000 tons of coal and about 5,000,000 tons of iron will be wonderfully increased during the next few years."

Those who take note of the weekly bank clearings of the country may have noticed the wonderful increases made by some of the southern cities. These increases range from 40 to more than 100 per cent, those of Savannah, for example, being 103 per cent greater for last week than for the corresponding week of the previous year.

Industrial and financial revolution must, in the course of time, bring great political changes. It is not too much to hope that the day will come when the industries will carry lessons that will effectually and forever break up the so-called "solid south" of the Democracy, for it is under Republicanism that industries originate, expand and thrive. There should already be enough instruction in the development of the south under the present administration to bring that section into line for expansion and the wider markets that the policy of expansion will secure.—Kansas City (Mo.) Journal.

DEMOCRATS HEDGING.

Beginning to See That They Are on the Wrong Track.

"It is a noticeable fact," remarks the Albany Journal, "that already the Bryanite newspapers have dropped the Porto Rico tariff law, over which they were making a large and conspicuous fuss but a few weeks ago. That no further attempt will be made to use it as a campaign issue is plain." If the Democrats continue to drop issues that are worse than useless to them, they will soon be without a plank to stand on.

Our industries are flourishing under protection. Prosperity is promoted by 100 cent dollars. Expansion is a fact, and the American flag floats over our new possessions. By antagonizing these things the Democracy will invite and receive a crushing defeat. The full truth has not dawned upon it yet, but it seems danger and will soon be made to realize that the Porto Rican tariff law is not the only issue on which it has taken the wrong and unpopular side.—Rochester Democrat and Chronicle.

Latest Oregon Figures.

Latest advices from Oregon show that the Republican pluralities in this month's elections in that state were larger than at first reported. The Republican candidate for governor had a plurality of more than 10,000, almost exactly the same as it was in 1898. For congressmen the combined plurality of the two Republican candidates was about 11,500, or 2,500 more than the plurality given to the same candidate in 1898 and fully 10,000 larger than the straight Republican plurality on congressmen in 1896. It should be remembered also that in 1896 there was no fusion of the opposition vote, whereas this year all the parties opposed to the Republicans formed as complete a fusion as was ever made. Besides this, Mr. Bryan had made a tour of Oregon a few weeks before the election.

Price of Cattle.

The average price of cattle on the farm was \$16.65 per head on Jan. 1, 1897, just before President McKinley was inaugurated. At the beginning of this year cattle were worth \$23 per head on the farm. The increase in the last three years has been 50 per cent. These figures are from the reports of the department of agriculture and may be accepted as absolutely reliable.

Profit in Bond Redemption.

The exchange of old bonds under the gold standard law for new bonds bearing 2 per cent interest has exceeded \$300,000,000 and has so far resulted in a net profit to the government of \$8,000,000.

UNIQUE CRICKET RECORD.

Left Handed Bowler Has Captured One Thousand Wickets.

F. E. Kelly, who is secretary of the Metropolitan District Cricket League and captain of the Knickerbocker A. C., has recently completed a unique record which has never before been accomplished by a player in this vicinity, says the New York World.

He has carefully preserved his bowling analysis since he first played cricket in the United States, 12 years ago, and he now finds that he has accomplished the rare feat of capturing 1,000 wickets in that time. His complete record is as follows:

Year	Balls	Runs	Wickets	Average
1888, Denver	570	20	153	4.3
1889, Chicago	1,478	50	367	4.46
1890, Chicago	1,478	50	452	7.3
1891, Chicago	2,894	127	553	6.02
1892, Chicago	1,073	120	651	10.0
1893, Chicago	603	27	234	4.3
1894, New York	1,030	80	669	8.2
1895, New York	1,433	63	785	10.57
1896, New York	1,350	63	703	8.46
1897, New York	1,353	72	703	8.46
1898, New York	1,010	65	544	7.02
1899, New York	2,002	65	757	8.46
1900, New York	504	14	293	14.63
Totals	19,131	1,062	7,323	7.32

Kelly was born in the East Indies, where his father, Colonel I. J. Kelly of the British army, was stationed at the time. He learned his cricket in England and at one time was a member of the Emeriti and Stoles clubs of London. He played his first cricket in the United States in Denver and from there moved to Chicago, where he played with the Wanderers and Phoenix clubs. He moved to New York in 1894 and since then has played with the New Jersey A. C., now amalgamated with the Knickerbocker A. C.

Kelly is undoubtedly the best left handed bowler in the United States. He has been credited with many good performances, but the chief of these took place in England, where, playing for Bromley, Kent, against an eleven of the Gentlemen and Players, he captured eight wickets for ten runs. His best performance in the United States have been six wickets for one run against the Liden club and four wickets with consecutive balls against Harvard college.

A WOMAN IN THE KLONDIKE.

How She Made a Fortune After She Was Widowed.

Mrs. Mary Foster Wilson, who has returned from the Klondike to Boston, tells an interesting story of her experiences. Five years ago she and her husband sailed with their little all, some \$200 of hard earned and ploughing saved money, for the Yukon river gold diggings. Her husband died within a year. Three years ago she was the pioneer hotel landlady in Dawson City. Today she has about \$150,000, invested in gilt edged securities and first class real estate in California, and her yearly income from her placer mines and her interest averages \$13,000, says the New York Tribune. Mrs. Wilson first opened a hotel, which cost her \$2,000. She soon paid for this, and in a short time saved \$8,000 in gold. Then she turned her attention to mining. She says:

My inherited claim on Hunter creek turned out well. I devoted nearly all my attention to that in the year 1897. I had to hire all the work done, and my men were wasteful, but the claim paid a net profit of over \$10,000 in one year. We struck bedrock at a depth of 22 feet, and there we dug tunnels or drifts into the richest gold bearing gravel. Lots of that gravel ran \$2 a pan, and some even to \$4 a pan.

Every day I went down into the hole in the gravel and saw for myself what the hired men were doing. I was cheated at first, but I soon came to know whether the miners were loafing or were carrying off nuggets from the property. I considered that the men who worked for me should never drink or gamble, and I went into saloons in Dawson sometimes myself to assure myself of suspicions. I heard that my hired men were sober and not gambling. When the annual summer sluicing took place in June, 1897, and we ran all the accumulated gravel heap through the sluices, we got out some 35 pounds more gold in about six weeks. I sent it all down to the San Francisco mint and had the money deposited in a bank for me.

The second year's work in the mines was prosperous. We had taken out about \$18,000 in gold when I was offered \$80,000 cash for my claim. I felt that I would be better off with the cash than mining among men and so sold out. From that time until the summer of 1898 I bought and sold real estate, built two houses at Dawson and added to my fortune every month. Oh, I ought to add that I had over 20 proposals to marry there in one year. One week I had offers of marriage from three men.

The Red Squirrel Must Go.

So troublesome has the little red squirrel become in Ontario county that the village of Canandaigua, near Rochester, is up in arms against him and has authorized a crusade which, if followed out as planned, will totally annihilate the red squirrel family in that section, says the New York Times. His enemies say he is doing damage to buildings and bird nests and might drive out the fine colony of gray squirrels that has taken up habitations in the outskirts of the town. The extermination will be supervised by A. P. Wilbur, a well known naturalist, who was appointed to take charge of the work at the special indignation meeting called the other evening by the village authorities.

BOERS ATTACK BRITISH POST.

After Being Repulsed They Are Seen Burying Their Dead.

London, July 23.—A dispatch from Gen. Roberts to the war office describes an attack made by Boers upon the British post protecting the head of the railway thirteen miles east of Heidelberg. The post was completely surrounded, but the garrison, consisting of 200 of the Dublin fusiliers, 120 engineers, and ten yeomanry, repulsed the attack before Gen. Hart arrived with reinforcements that had been requested.

The Boers were seen burying their dead and carrying off their wounded in ambulances. The British losses are not reported.

Killed by a Policeman.

Menominee, Mich., July 23.—Joseph Mitchell, a cigar-maker, was shot and instantly killed while resisting arrest by Chris Eck, a Marinette policeman. The killing has aroused considerable feeling among Mitchell's friends. Eck claims Mitchell had a companion who attempted to rescue the prisoner, and that when he fired his revolver as a signal for assistance Mitchell was accidentally hit.

Killed Brother-in-Law.

Decatur, Ill., July 23.—John Eden, a coal miner, was shot and killed by his brother-in-law, Edward Martin, barber, at Atlantic. Eden was drunk and abusing his family and Martin attempted to quiet him. Eden struck Martin several times and drew a knife. Martin then shot Eden in the heart with a revolver and gave himself up to the police. Eden was tried for murder several years ago.

Killed in Train Accident.

Tiffin, Ohio, July 23.—A westbound Baltimore and Ohio passenger train at a crossing five miles west of this city struck a wagon, killing the driver, Anthony Kuhn. Three men were stealing a ride on the pilot of the engine. Of these William Wilson was instantly killed, and Charles Matz and Roy Fencannon were fatally injured. All resided in this city.

It has been demonstrated repeatedly in every state in the union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher of Liberty, W. Va., only reports what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by Smith's Pharmacy, next to postoffice, Kodak agents.
